15/4/2018

Dear Sir/ Madam

It would be great news if the Eshiels woodland strip, bordering the river, could be brought back to life again. I've walked that strip for over fifty years and seen the best and more recently the worst of it. It's position and habitat has supported a fund of wildlife, some of it not seen elsewhere in Scotland.

Therefore I would give my full support to this Community Asset Transfer request.

Yours faithfully
Ruth Robertson
