

# CHRISTMAS CROWN

**MAKE YOUR VERY OWN FESTIVE WOODLAND CROWN AND  
BECOME KING OR QUEEN OF THE CHRISTMAS FOREST!**

## Here's what you need:

- Crayons or coloured pencils
- A pair of scissors
- Sticky tape or glue
- Possibly a grown up

## Now how to make it...

- First you need to decide which four of the gems you're going to use to decorate your crown. Each one represents different traits so choose wisely.
- Colour in your chosen gems and the crown.
- Cut out the gems and the crown. The crown is in two parts – a front section and a back section which is a long band.
- Stick the gems to the spaces on the front section of the crown.
- This is where you might need some help from an adult. Use your glue or sticky tape to attach one end of the band to one of the edges of the front of the crown.
- Wrap the crown and band around your head so it's the perfect size for you and secure the other end of the band to the other side of the front with sticky tape or glue (keep the sticky things away from your hair!).

**AND THAT'S IT, YOUR MAJESTY!  
YOUR CROWN IS READY TO WEAR!**
