

The Touchstone Maze

The **Touchstone Maze** was created using **81 stones** from quarries across the Highlands and Islands and reflects Scotland's complex geographical map.

Detailed
Plan

- 1 65** Metamorphised limestone, Sheerglass Quarry, Blair Atholl
- 2 4 66** Mica schist with granite pegmatite veins, Moine, Meadowside Quarry, Kingussie
- 3 68 69** Folded granite gneiss, Daviot Quarry, near Inverness
- 5 9** Volcanic basalts with secondary zeolites, Isle of Mull
- 6** Ballachulish slate, Fort William/Ballachulish area
- 7 8** Phyllite - metamorphic, Fort William/Ballachulish area
- 10** Barytes vein with large galena (lead) crystals, Strontian Barytes Mine
- 11 15** Granodiorites, Strontian area
- 12 16** Granite pegmatites with large mica crystals, Callop Quarry, Loch Shiel area
- 13** Skye marble, Torrin Quarry, Isle of Skye
- 14 17 18 19** Volcanic basalts, Sconser, Isle of Skye
- 20** Mica schist, Moine Loch Shiel
- 21 22** Lewisian gneiss; 21; Moorfield Quarry, Ullapool
- 25 26** 22 + 26; Lochinver
- 29 30** 25; Marybank Quarry, Stornoway
- 23** 29 + 30; Laxford Bridge
- 23** Torridonian sandstone, Assynt area, Sutherland
- 24** Lewisian gneiss, Moorfield Quarry, Ullapool
- 27** Marble, Ledmore Quarry
- 28** Marble melange, Ledmore Quarry
- 31** Pyroxenite, Ledmore Quarry
- 32** Borolanite, Ledmore Quarry
- 33 34** Durness limestone, Moorfield Quarry, Ullapool
- 35** Pipe rock - sedimentary quartzite with remnant burrows, Assynt area
- 36** Fucold bed sediment, siltstone, Assynt area
- 37** Sandstone, Heddle Quarry, Orkney
- 38 43** Migmatized Moine schist, Rogart Quarry and area
- 39 74** Moine mica schist with granite pegmatite veins, Rogart area
- 40** Quartzite, Assynt area

- 41 42** Caithness flagstone, Spittal Quarry, Caithness
- 44** Sandstone, Brora
- 45** Rova Head conglomerate, Shetland
- 46** Metamorphosed archose sediment, Learnie Quarry, Black Isle
- 47** Upper old red sandstone, Tain Quarry
- 48 73** Augen gneiss, Ardross area
- 49** Dalradian sediment, Cottonhill Quarry, Macduff
- 50 51** Moray sandstone, from Spynie ridge near Elgin and Clasach Quarry near Hopeman
- 52 56** Alkall biotite syenite, Dunecht Quarry, near Aberdeen
- 53** Mica schist with granite pegmatite veins, Blue Hills Quarry, Craigellachie and Craiglash Quarry, Kincardine o'Neil
- 54 58** Metamorphosed gritty siltstone, Cottonhill Quarry, Macduff
- 55** Meta-somatic granite or granite gneiss, Dunecht Quarry, near Aberdeen
- 59** Granite pegmatite vein with large biotite crystals, Huntly area
- 60** Cullen quartzite, Cairdshill Quarry, Keith
- 61** Intrusive granite, Dunecht Quarry, near Aberdeen
- 63 67** Intrusive granite, Park quarry, Nairn
- 64** Micaceous schist, Grantown area
- 70** Mica schist with granite pegmatite veins, Daviot Quarry, near Inverness
- 71** Felsite - as Dykes, Daviot Quarry, near Inverness
- 72** Middle old red sandstone conglomerate, Black Isle
- 75 76** Lower old red sandstone conglomerate, Beaully and Strathpeffer areas
- 77** Serpentinite, Drumnadrochit
- 78 79** Migmatic schist, Loichel Dam, Strathfarrar
- 80** Coarse grained garnet mica-schist, Strathfarrar
- 81** Hornblendite, Invergarry area
