Scotland's national
forests and land
are responsibly
managed to the
UK Woodland
Assurance Standard.

Designated historic assets SM 12483 Greenlands Hut Circles and SM 12352 Larrick Cairn will be actively managed in open space with all regen removed. An unplanted 20 m buffer zone will be maintained around each scheduled area.

Relevant heritage features (using information held in Forester Web Heritage Data and associated archaeological reports) will be managed under LISS and will be marked out and protected during forestry operations.

Green hatching: Area surveyed by FLS Environment Team following windblow and harvesting (2024) in which previously recorded heritage features have been confirmed as lost.

Significant heritage features (see map) will be actively managed under LISS with regen removed from relevant structures and will be marked out and protected during forestry operations.

Blue outline: Area surveyed by professional archaeological walkover survey (2011)
