

## Lochaber Forest District

### Morvern Forest Design Plan

### Map 8c: Future Forests: Restocking. (Lochaline South)

#### Legend

- Morvern FDP Area
- Compartments

#### Restock

- DF
- L
- MC
- MIXED
- NBL
- NF
- NS
- OG
- SP
- SS

Note: the composition of the MC (Mixed conifer area) is difficult to define at this stage given the uncertainty regarding disease threats and its impact on species choice. The MC areas will be subject to site specific operational plans to relate species to landform and soil type, and this will further enhance landscape and productivity.

Scale: 1:33,000 @ A3

November 2013

Note: Detailed restocking plans will be drawn up on a site specific basis for archaeological sites. Riparian zones will be restocked in line with UKFS guidelines. Specific conservation sites and European Protected Species locations will be restocked via site plans informed by surveys undertaken immediately prior to felling.
