Scotland's National Forest Estate is responsibly managed to the UK Woodland Assurance Standard.

Coilltearachd agus Fearann Alba

Proposed objectives

1. Manage the woodland under appropriate silvicultural systems to produce quality saw logs and other timber products. 2. Establish future provisions for planned roads, timber facilities and ongoing roads maintenance to meet forestry operations programmes. 3. Ensure landscape design is sympathetic to surrounding landform of the block with particular focus being given to areas around the Nith Estuary, National Scenic Area. 4. Maintain and enhance the species richness of the woodland and open habitats to benefit biodiversity.
