Felling 2023

Felling phases below rolling 5 year periods and for visualisations start on the dates shown above

- Phase 1: 4-5 years
- Phase 2: between 5 and 9 years
- Phase 3: between 10 and 14 years
- Phase 4: between 15 and 19 years
- Phase 5: between 20 and 24 years
- Phase 6: between 25 and 29 years
- Phase 7: 30 years and greater
- Phase 7: 30 years and greater
- Low Impact Silviculture
- Minimum Intervention
- Natural Reserve
- Long Term Retention
- Neighbouring woodland

2033

Felling phases have a rolling 5 year period and
for visualisations start on the date shown above.

-  Sitka spruce
-  Norway spruce
-  Scots pine
-  Lodgepole pine
-  Larch
-  Douglas fir
-  Mixed conifers
-  Ash
-  Oak
-  Beech
-  Birch
-  Mixed broadleaves
-  Neighbouring woodland

Scotland's National
Forests Estate is
responsibly
managed to the
UK Woodland
Assurance Standard.
