

Appendix I - LMP Felling and Thinning Tables

Proposed clearfell (Map 9)

This shows the scale of felling within the felling phases in the context of the whole LMP and includes 'clearfell' and 'clearfell with seed tree' systems. Felling hectarage reflects the net area, excluding woodland proposed for retention or open space within felling coupes.

Scale of proposed licensable felling.						
Total LMP Area (hectares)		94.95				
LMP Phase	Phase 1 (2026-2030)	Phase 2 (2031-2035)	Phase 3 (2036-2040)	Phase 4 (2041-45)	Long term retention	Area out-with 20 year plan period ¹
Felling Area (net hectares)	26.40	0	0	0	0	68.55
Proportion of total plan area	27.8%	0.00%	0.00%	0.00%	0.00%	72.20%

¹ Area out-with 20 year plan period is the total current woodland within the plan area minus 20 year felling programme.

Proposed 10 year thinning areas by species (Map 10)

This table shows proposed thinning areas between 2026-2036 (broken down by species).

Species	Thinning (ha)
Oak	32.7
Birch	8
Mixed/alternative broadleaves	3.9
Mixed/alternative conifers	3.2
Beech	1.8
Sitka spruce	1.3
Scots pine	1
Sycamore	1
Bird cherry	0.5
European Larch	0.3
Total	53.7
