

## Appendix II - 10 Year Restocking Proposals by Coupe (2026-2036)

Management Phase	Map Identifier(s)	Species to be established following future species and habitats plan	Net area (ha) to be re-planted
<b>Restock of plant health felling areas</b>			
Phase 1	70001	Native mixed broadleaves – principally mixed broadleaves with 10-20% Scots pine (natural regeneration & supplemental planting)	4.34
Phase 1	70001	Scots pine - principally mixed broadleaves with 10-20% Scots pine (natural regeneration)	0.77
Phase 1	70001	Successional open	0.14
Phase 1	70008	Native mixed broadleaves - principally native oak woodland - W10 & 11 (planting)	5.38
Phase 1	70008	Native mixed broadleaves – principally mixed broadleaves with 10-20% ornamentals (planting)	6.53
Phase 1	70008	Ornamental species – principally mixed broadleaves with 10-20% ornamentals (planting)	1.15
Phase 1	70011	Native mixed broadleaves – principally mixed broadleaves with 10-20% Scots pine (natural regeneration & supplemental planting)	5.11
Phase 1	70011	Scots pine - principally mixed broadleaves with 10-20% Scots pine (natural regeneration)	0.90
Phase 1	70012	Native mixed broadleaves – principally mixed broadleaves with 10-20% ornamentals (planting)	4.8
Phase 1	70012	Ornamental species – principally mixed broadleaves with 10-20% ornamentals (planting)	1.45
<b>Underplanting areas in mature woodland</b>			
Phase 1	70005	Native mixed broadleaves - principally native oak woodland - W10 & 11 (underplanting in partially failed areas in existing canopy gaps)	0.96

Phases 1 & 2	70004	Native mixed broadleaves - principally native oak woodland - W10 & 11 (underplanting in existing canopy gaps)	2
Phases 1 & 2	70010	Native mixed broadleaves – principally mixed broadleaves with 10-20% ornamentals (underplanting after thinning)	1.28
Phases 1 & 2	70010	Ornamental species – principally mixed broadleaves with 10-20% ornamentals (underplanting after thinning)	0.22
Phases 1 & 2	70013	Native mixed broadleaves – principally mixed broadleaves with 10-20% ornamentals (underplanting after thinning)	0.85
Phases 1 & 2	70013	Ornamental species – principally mixed broadleaves with 10-20% ornamentals (underplanting after thinning)	0.15
<b>Phase 1 restock of plant health felling areas (hectares)</b>			<b>26.40</b>
<b>Phase 1 &amp; 2 underplanting (hectares)</b>			<b>5.46</b>
<b>Ten Year LMP Restocking Total (hectares)</b>			<b>31.86</b>
