

# North Region Inverness Woodlands Land Management Plan

Map 15: Water  
Reference Scale: 1 : 15,000  
Date: 08/11/2018

Tributary of Ardersier Burn 20246  
Ecological Status: Good

Rough Burn 23398  
Ecological Status: Moderate

Caledonian Canal 20238  
Ecological status: Good

All water bodies across Scotland have been assessed for ecological and chemical status by SEPA. The water bodies within the LMP were assessed in 2016.

All water bodies within the LMP have not been subject to forestry pressures: FES will protect the integrity of all watercourses & private water supplies during management operations and into the long term.

River Nairn 20205  
Ecological Status: Moderate
