

Private Water Supplies Questionnaire

Name:

Address:

1. Where does your property get its drinking water from?
2. If it is a private water supply, do you know what type? Please highlight one of the following:
 - Ground water (borehole or well more than 5m deep)
 - Ground water, surface water, or both (spring or flushes)
 - Surface water (stream, river or lochan)
3. Do you know the location (grid reference) of the abstraction point?
 - If yes, this free website can help you identify the grid reference <https://gridreferencefinder.com/>
4. Do you know where your private water supply infrastructure (pipe work and tanks) is located?
 - If yes, this free website can help you identify the grid reference <https://gridreferencefinder.com/>
5. Do you know the catchment area of the abstraction point?
 - If yes, please provide a map with the catchment identified.
6. Have you suffered any supply issues in the past?
7. Do you know the volume of any storage tanks?

If you believe you have a private water supply but are unsure of its type or source, we would be happy to meet on site to complete this questionnaire with you.
