

This map is derived solely from the Future Habitats map in the current Land Management Plan 2014 - 2024 for the purposes of external scoping for a new Plan.

It therefore shows *theoretical* (i.e. indicative) future habitat/tree species that FLS envisage if no further changes are considered and adopted during the preparation of the new draft 10-year Plan.

Indicative Future Habitats - Map 4b

Author: Chris Marsh

Scale @ A3: 1:50,000

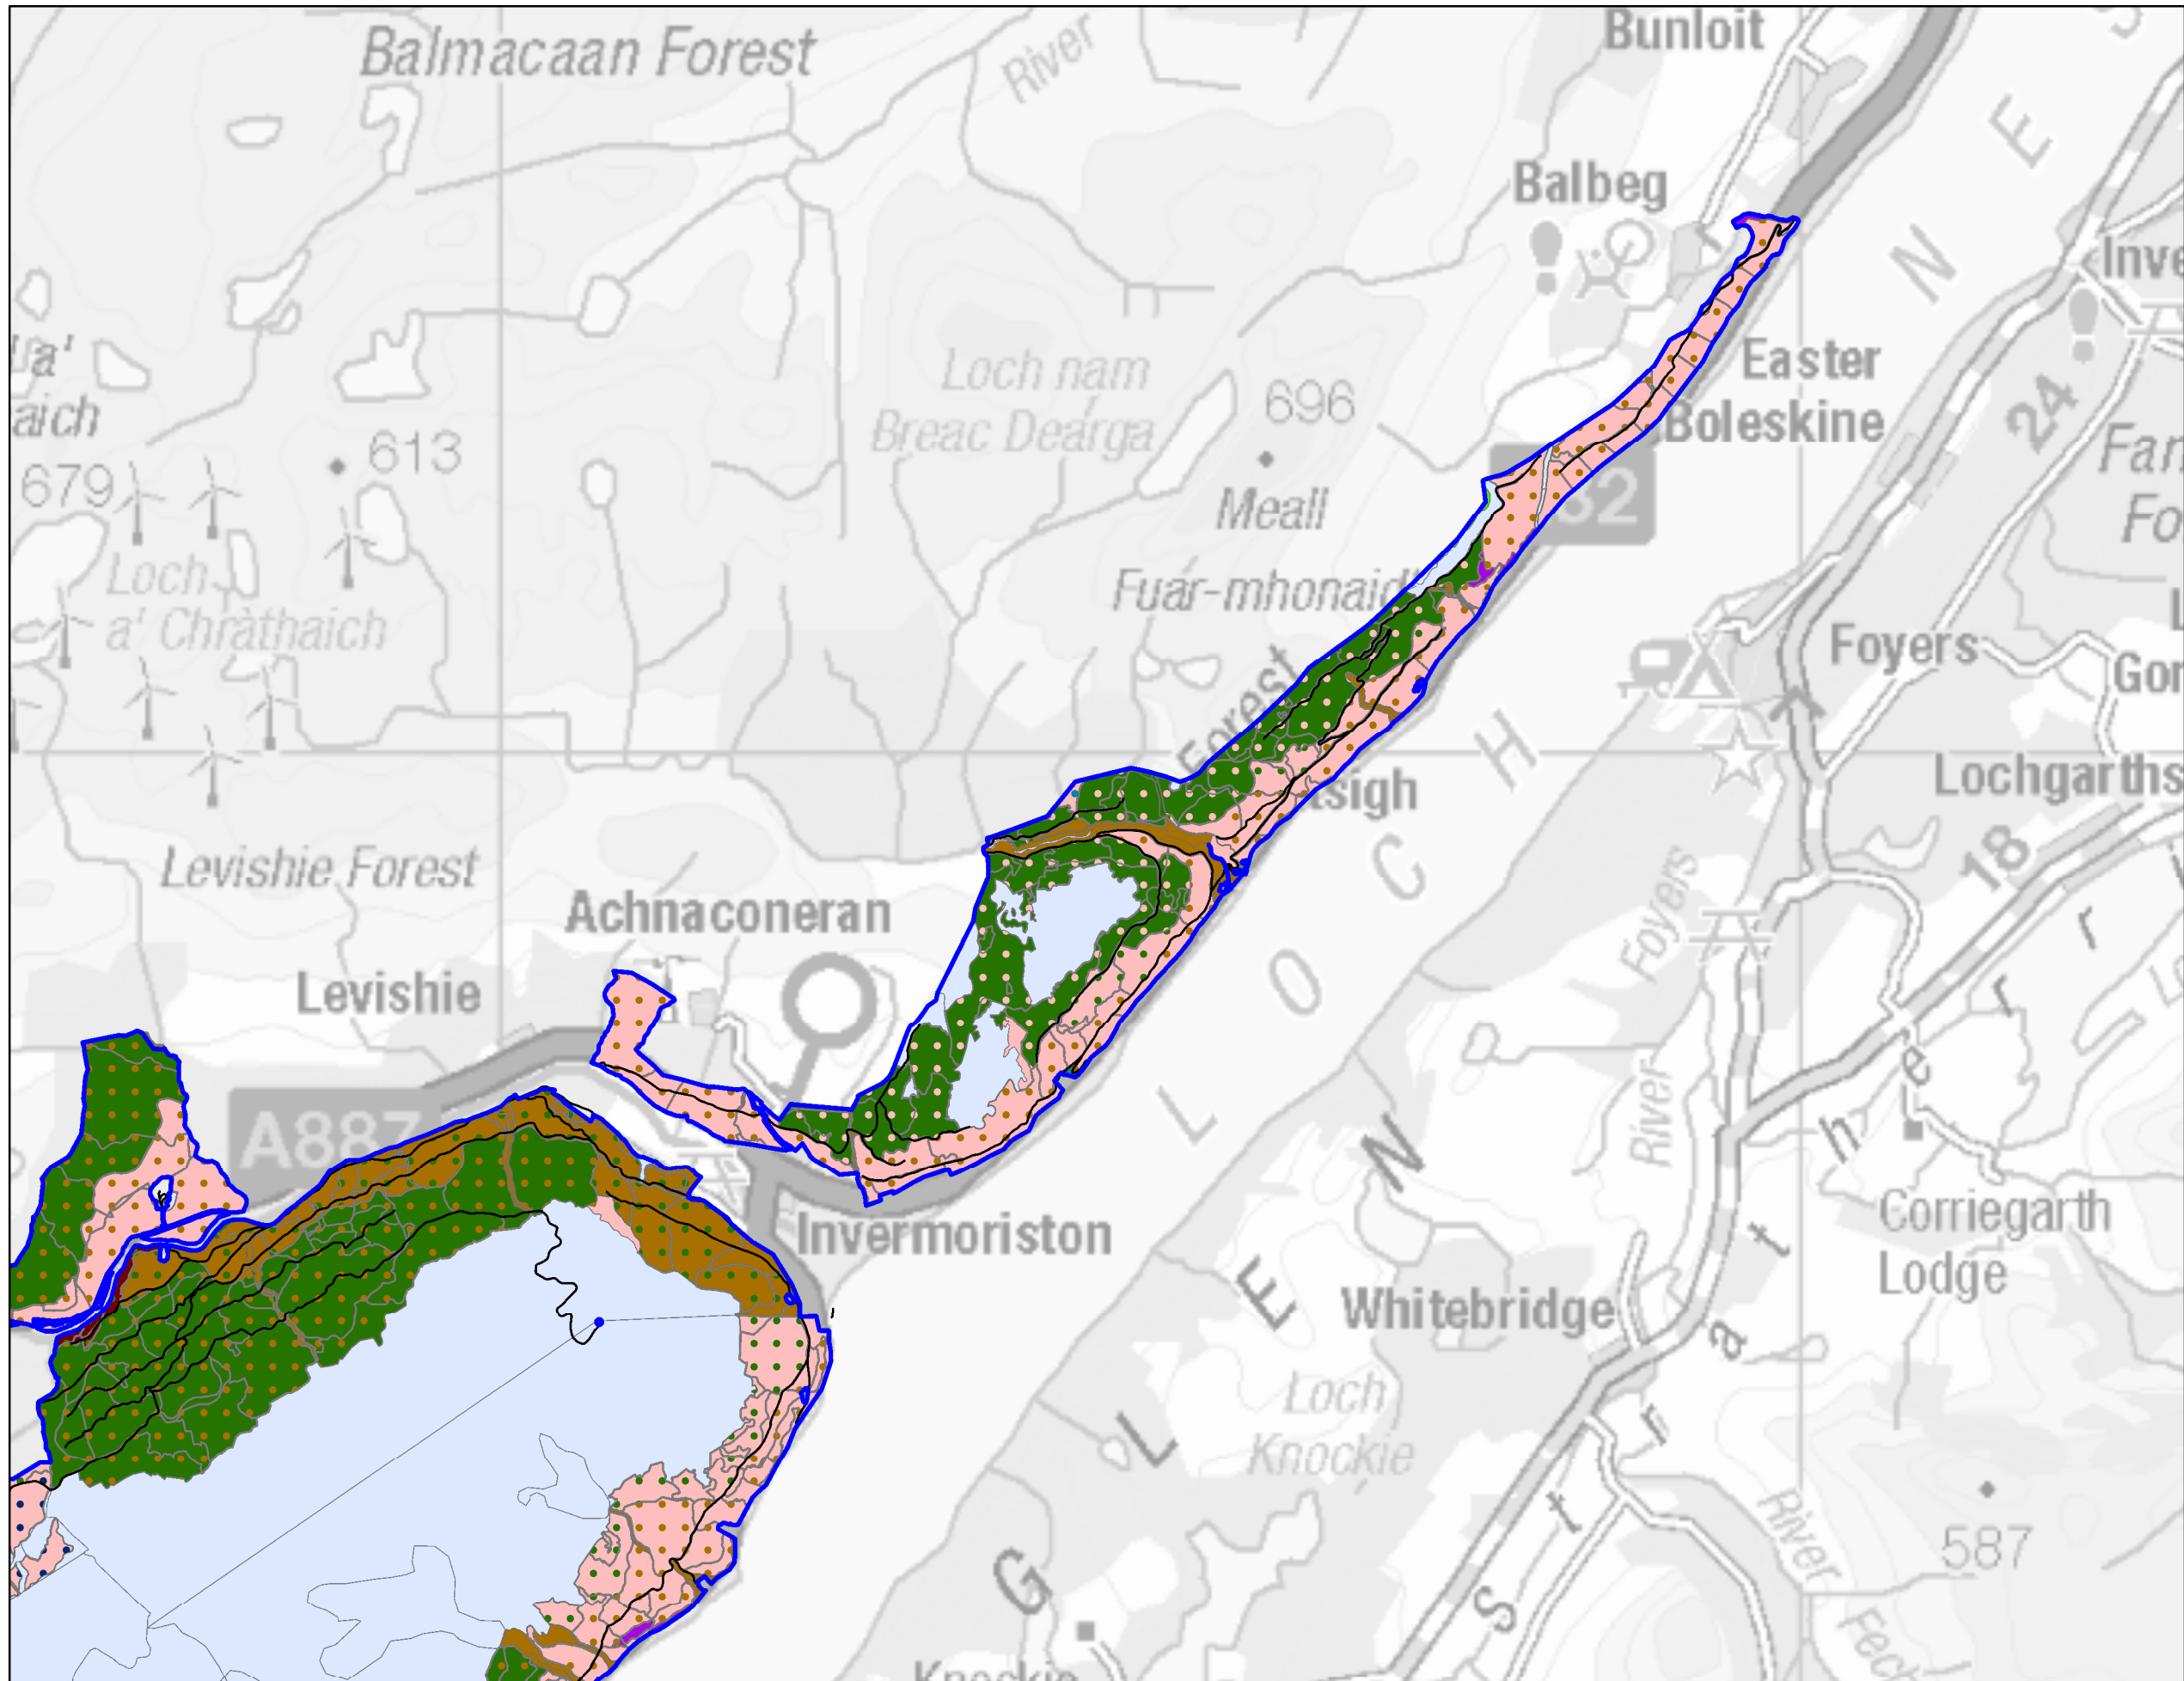

Date: 18/03/2024

Restock/Future Habitat Species

Pure and Mixtures

- Ash
- Beech
