

Appendix 1 LMP Felling and Thinning Tables

Proposed clearfell

This shows the scale of felling within the felling phases in the context of the whole LMP. This includes any areas of 'LISS – Fell' (i.e. removal of final overstorey).

Scale of proposed licensable felling.						
Total LMP Area		3494.13				
LMP Phase	Phase 1 (2026-2030)	Phase 2 (2031-2035)	Phase 3 (2036-2040)	Phase 4 (2041-45)	Long term retention	Area out-with 20 year plan period ¹
Coupe Felling Area (ha)	171.42	146.97	16.04	0	26.80	3132.9
Proportion of total plan area	4.91%	4.21%	0.46%	0.00%	0.77%	89.66%
Coupe Felling Area (<i>excl. larch contingency coupes</i>)	171.42	82.97	16.04	0	26.80	3196.9
Proportion of total plan area (<i>excl. larch contingency coupes</i>)	4.91%	2.37%	0.46%	0.00%	0.77%	91.49%

¹ Area out-with 20 year plan period is the total current woodland within the plan area (3494.13 ha) minus 20 year felling programme.

Proposed thinning

This shows the area of thinning over the first 10 years of the LMP.

Species	Thinning (ha)
Sitka spruce	43.78
Norway spruce	8.02
Douglas fir	5.93
Noble fir	3.24
Red cedar	4.67
Mixed conifer	19.90
Oak	3.84
Aspen	2.56
Birch	1.86
Mixed broadleaves	96.23
Total	190.03
