Forestry and Land Scotland | Coilltearachd agus Fearann Alba

South Knapdale LTP

Tree species
Diversify the forest block in terms of age and species as appropriate.

Timber
Maintain sustainable quality timber production.

SSSI & Tarbert Woods SAC
Artilligan and Abhainn Strathain Burns SSSI, (also part of Tarbert Woods SAC) located over two areas of deeply-cut wooded gorges. Designated for upland oak woodland. Maintain and enhance the broadleaf woodland and habitat. Continue with rhododendron and deer control.

Operational access
Plan and construct cost effective access to inaccessible crops and for establishment success.

Ancient Woodland Sites (AWS)
Identify, protect and enhance AWS. Restore PAWS sites.

Roading and access
In forest roads - maintain and ensure accessibility.

Utilities
New overhead powerline.
Protect infrastructure and ensure correct buffer zones.

Wetland habitats
Restore and maintain areas of bog/wetland habitat where appropriate, and other priority/ protected species and habitats. Select suitable tree species for soil type.

Core path
Core path (C100 Meall Mhor, Tarbert) from A83 up to the mast in the block. Ensure operations don't effect core path.

Peat
Identify deep peat areas and associated hydrological unit. Select suitable tree species for soil type.

Larch
Develop a programme to remove most larch in phase 1 or phase 2, if phase 1 not feasible.

Coupes
Ensure that coupes relate to landscape character and scenic quality, Scale, shape and plan coupes to maximise cost efficiencies for felling, access provision and re-establishment effectiveness.

FLS fencing
Ensure fencing appropriate and maintained as required.

Heritage features
Ensure features are protected.

Community and landowners
Ensure liaison and consultation.

Deer management
Provde opportunity for appropriate and effective deer management and integration with neighbouring landowner deer management.

Private Water Supplies
Protect water supplies, enhance buffers and maintain access as required.

Drinking water catchment and watercourses
The block borders a drinking water protected area. Protect drinking water area from impact within the block as required
