

## Lochaber Forest District

### Morvern Forest Design Plan

#### Map 2b: Key Features (Lochaline North)

While European Protected Species occur throughout the Morvern FDP area, the Lochaline North block is particularly significant for a range of protected mammals and raptors. Management of these species in line with FC guidance will influence both operations and coupe design.

Lochaline North is a variable forest with a wide range of growth rates, stocking rates and species. Extensive restructuring has taken place throughout this highly visible forest.

Windblow is less of a factor in this sheltered forest.

#### Legend

-  Morvern FDP Area
-  ASNW
-  Roads: Class A - C
-  Roads: Other
-  Proposed Approved Roads
-  Haul Road to Pier
-  Scheduled Ancient Monument
-  Unscheduled Ancient Monument
-  Water Supplies
-  Deer Fences
-  Windblow
-  Quarries
-  Overhead powerline
-  Public Right of Way
-  Footpaths
