

Concordat

.....

This concordat reflects the willingness of Forestry and Land Scotland and the Scottish Auto Cycle Union to work together constructively, in line with their respective corporate positions.

Mutual Goals

- High quality motorcycle events for competitors and spectators, making responsible use of Scotland's national forests and land.
- Venues and events with high standards in planning, event and spectator management, delivering high quality competition and spectator experiences.
- The highest standards of health and safety practice and culture.
- Free flow of relevant information between the parties.
- Informed and motivated staff, organisers and officials, with shared objectives for both competitive motorcycle sport and professional event management.
- Business and environmental sustainability.

Both Organisations will:

- Work in line with the arrangements of the jointly signed Master Agreement between our organisations.
- Work to develop links between local motorcycle clubs and the managers of forests covering their area, seeking innovative solutions to encourage safe and enjoyable motorcycle events for riders of all abilities, leading to lifelong, fulfilling experiences and success in motorcycle sport.
- Respond positively to conflicting interests, seeking win-win mutually beneficial solutions.
- Maintain ongoing dialogue to make the best use of forests for motorcycle sport and to minimise negative impacts.
- Promote well-managed motorcycling events as something which can be carried out in selected forests without interfering with other recreational uses.
- Seek opportunities for working towards Scottish Government's vision for a net zero nation.
