TWIT-TWOO, I see you

Colour in and then cut out your very own owl mask! Attach some string or ribbon to each side so you can wear your owly disguise.

*Did
you know...*

...two owls make up the sound *twit-tawoo*, the male and the female. So if you hear a 'twit' and a 'tawoo' then you know there are two tawny owls talking to each other.

This is a great activity to do with a friend. When you both have your masks finished pop them on and start your very own *twit-tawoo* conversation!
