

## Map 8 Roads & Operational Access – accessible text

Map of land management plan area showing two new planned forest roads, in Glen Doll and in Glen Prosen.

Planned new forest road parallel to/on Jock's road right of way, for temporary operational access to allow felling of windblown trees. Forest road will then be downgraded and footpath reinstated which has more hard wearing surface and better drainage than current access.

New road planned to link existing forest roads for harvesting access in Glen Prosen plantation.
